Announcement

This is the Seventeenth Annual Spring Show and Sale held at this place and at this season of the year. Never was a better or more desirable lot of cattle sold in one of these sales than is being offered this time. There never was a time in these seventeen years when first-class cattle could be had at such low prices as they will sell for at this sale. Never was a time when the buyer had such assurance that there would be a rise in value of his purchases. To buy at this sale means to invest in a product that is sure to return a handsome profit and which will be worth more and more in the succeeding years.

Those who know pedigrees will recognize that this catalog shows a much more richly bred lot of cattle than any that has been issued heretofore for one of these annual sales. Many of the cattle that are listed herein have won high honors at some of the country's most important expositions. A large number of the younger cattle in this sale need only to be kept coming along as they are now started in order to win first prize in hot competition at the coming season's shows. Every animal in this sale will make a desirable unit for a good herd of purebred Shorthorns.

There never was a time, while these annual sales have been held, that there has been so wide a spread in price, on the commercial beef market, between the better grades of cattle and the common or medium grades. In order to produce the better grades it is absolutely necessary to use purebred bulls and they are more effectively produced from purebred females. It is such cattle as are to be sold in this sale that will turn the producer's loss into profit and it is only by the use of such cattle that the commercial cattle producer can prevent a serious loss in times of depression. Prices are not high this year. This is a good time to get a herd bull that will assure you profitable production.

Dairy products are taking a decided upturn in price along with the rise in the price of good quality beef. A large number of the cattle listed in this catalog come from ancestors that have made high records for milk and butterfat production. It is only in the Shorthorn breed that you can find that profitable balance of beef and milk production that gives the possessor two sources of profit.

We invite you to attend this show and sale. Come in time to see the cattle exhibited and judged. Study them carefully and critically. Select a bull that is best fitted to mate with the cattle of your herd. Then buy that bull at your own price at the auction in the afternoon. There never was a better time or place to get real herd bull value for the money.

The eight females that are to be sold are as choice as any that will be for sale in America this year. Four of them have calves at foot that will soon be worth as much as will be paid for the pair. The others are great prospects for exhibition or breeding purposes.

WILL JOHNSON, Sale Manager.

General Information

LOCATION: This show and sale will be held at the sale pavilion in connection with the Horse and Mule barn at the Union Stockyards, South Omaha, Nebraska, within a short street car ride of the business district of Omaha. The pavilion is well lighted and heated and those who attend may be assured of comfort regardless of what weather conditions may be.

TERMS: Cash unless other arrangements are made in advance with the consignor from whom you purchase. Settlements are to be made with the clerk of the sale immediately at the conclusion of the auction. All stock will be at buyer's risk as soon as bid off, but management will attend to loading on cars or trucks in compliance with instructions from purchasers.

GUARANTEE: All cattle are sold subject to a 60-day retest for tuberculosis. Bulls are guaranteed breeders if properly cared for and not allowed to run with the herd. If a bull fails to breed, the animal may be returned to the seller in as good condition as when bought and if after a test in the seller's herd he still fails to breed, the animal will be replaced or the purchase money refunded. All cows with calves at foot are considered breeders and no further guarantee is made. All other cows and all heifers over 16 months old at the time of the sale are guaranteed to be breeders. Return freight, when necessary, is to be paid by the buyer. In order to take advantage of this guarantee the purchaser must notify the consignor, whose animal he has bought, within four months of the date of the sale. If no such notice is received by the consignor within that time no adjustment will be made.

The above guarantee and terms shall constitute a contract between the consignor and the buyer of each lot. The sale manager, nor the clerk of the sale, assumes no liability, legal or otherwise.

SHIPPING VOUCHERS will be attached to bills of lading on all less than car-load shipments routed over railroads granting one-half freight rate on purebred cattle.

Where footnotes appear in this catalog, they were furnished by the consignors or written from information supplied by the consignors.
